ANNUAL REPORT

OF

CIVIL HOSPITALS AND DISPENSARIES

OF THE

UNITED PROVINCES

FOR THE YEAR 1939

BY

COLONEL T. C. BOYD, M.R.C.P. F.R.C.S.I., D.P.H., I.M.S.,
Inspector General of Civil Hospitals, United Provinces

ALLAHABAD

SUPERINTENDENT, PRINTING AND STATIONERY, UNITED PROVINCES, INDIA

1940

No. 11239B(Special)

FROM

COLONEL T. C. BOYD, M.R.C.P., F.R.C.S.I., D.P.H., I.M.S.,
INSPECTOR GENERAL OF CIVIL HOSPITALS,
UNITED PROVINCES,

To

THE SECRETARY TO GOVERNMENT, UNITED PROVINCES,
MEDICAL DEPARTMENT.

Dated Lucknow, 3rd July, 1940.

SIR,

I have the honour to forward my report, together with the prescribed statistical returns, on the working of hospitals and dispensaries in the United Provinces for the year 1939.

2. The department was under the administration of Colonel J. A. S. Phillips, C.I.E., V.H.S., D.P.H., I.M.S., from 22nd February, 1937 to 9th June, 1939, when he proceeded on leave preparatory to retirement, making over charge to me.

3. Due to financial conditions many new developments remained unattainable and due to the same cause, the efficiency of the hospitals is severely handicapped. The important events of the year under report are :

(i) The Medical School, Agra, has been raised to a degree college.

(ii) The status of the Nagina Dispensary has been raised from a P.S.M.S., to a P.M.S., charge.

(iii) A sum of Rs.93,000 under the head of medical facilities was spent on equipment, etc. in various hospitals and did much to modernise several of the hospitals in this respect.

(iv) As a part of the Rural Development Scheme, 10 centres at varying points were established during the winter season for the relief of eye diseases. Grants on a per capita basis were also sanctioned to four private eye hospitals for the same purpose, viz., (1) Khairabad Eye Hospital, Sitapur, (2) Khatauli Eye Hospital, Muzaffarnagar, (3) Mohan Eye Hospital, Aligarh and (4) Jhinjhak Eye Hospital, Cawnpore.

(v) Spectacles were supplied to deserving cataract patients, free of cost.

4. *Statement " A "—Hospitals and Dispensaries*—At the close of the year 1938, the number of hospitals and dispensaries of all classes in the province was 714. Of these 389 were located in rural areas and 325 in urban areas.

During the year under review, sixty-five dispensaries were opened, ten closed and three transferred, leaving 766 (440 in rural areas and 326 in urban areas) in operation at the close of the year.

In connection with the Rural Development Scheme for medical relief in rural areas, 146 Ayurvedic Aushdhalayas and 47 Unani Dawakhanas were also opened, during the year under report.

5. *Statement "B"—Distribution of Medical Personnel*—The strength of the medical personnel working in all classes of hospitals and dispensaries in the province during the year under report was 2,965. It consists of I.M.S, P.M.S, I.M.D., and P.S.M.S., officers, Graduates and Licentiates, both paid and honorary, including the members of the Women's Medical Service, Compounders, Nurses, Midwives and Dais. Two hundred and eighty were in hospitals and dispensaries at the Provincial Headquarter, one thousand six hundred and four at district headquarters and other urban areas, and one thousand and eighty-one serving in rural areas.

6. *Statement "C"—In-door patients*—The number of in door patients treated at the State-Public, Local Fund and Private aided hospitals and dispensaries was 159,466 as against 154,131 in the previous year. The daily average attendance during the year was 6,308·344.

Out-door patient—The number of out-door patients treated was 9,149,868 as against 8,631,065 in the year 1938, which gives a daily average attendance of 62,597·6107.

The total number of patients treated, both in-door and out-door, stands at 9,309,334, showing an increase of 524,138 over the past year.

This shows a tendency to an increased appreciating of western medicines and I feel sure that this figure would rapidly expand if modern methods of treatment were more available in our hospitals and dispensaries.

7. *Statement "D"—Number of beds available and geographical distribution of diseases treated in all classes of medical institutions*—The total number of beds available during the year was 9,896 (6,514 for males and 3,382 for females) as against 9,672 (6,375 for males and 3,297 for females) in 1938. This shows an increase of 224 beds, of which 139 were on the male side and 85 on the female side.

The number of in-door and out-door patients treated during the year, for all types of diseases in all classes of hospitals and dispensaries in the Province, was respectively 189,400 and 10,867,666 or a total of 11,057,066 as against 10,523,896 in 1938. The number of male and females patients was respectively 7,542,509 and 3,514,557 or an increase of 434,229 and 98,941.

Malaria as usual remained the chief disease and is followed by dysentry in the list, Cholera and small-pox also took their toll. All largely preventable diseases. The figures for tuberculosis unfortunately also loom large in the picture and the outlook as regards its prevention and spread is no easy problem in India.

The following statement shows the number of cases treated for some of the principal diseases, and the number of deaths, during the year under report and the preceding year :

Disease	1938		1939	
	Cases	Deaths	Cases	Deaths
Malaria	1,068,949	137	1,163,776	123
Tuberculosis of lung	25,833	315	24,404	344
Cholera	14,022	387	5,478	198
Dysentry	189,411	271	83,079	114
Leprosy	10,281	13	10,265	20
Small-pox	975	47	1,233	54
Labour cases (Normal)	7,770	64	9,959	36
Ditto (Abnormal)	3,946	264	4,661	306

8. *Statement " E "—Surgical Operations*—The number of surgical operations performed in the State-Public, Local Fund, and Private-aided hospitals and dispensaries rose from 391,169 in 1938 to 402,133 in 1939.

9. *Statement " F "—Financial condition*—The total income of State-Public, Local Fund and Private-aided hospitals and dispensaries during the year was Rs,44,00,696 as against Rs.42,84.154 in 1938. The total expenditure aggregated to Rs.55,58,502 against Rs.34,79,857 in the previous year. The expenditure of Rs.35,58,502 includes a deficit of Rs 1,695 spent by the Ghazipur District Board. The closing balance including investments, deposits, etc. was therefore, Rs.8,43,889 against Rs.8,09,172 in 1938.

10. *Statement " G " Invested capital*—The amounts invested by the State-Public, Local Fund and Private-aided hospitals and dispensaries in the Province at the close of the year 1939, was Rs.22,98,170 against Rs.22,74,597 as on 31st December, 1938. Securities amounting to Rs.6,419 were sold and the deposits amounting to Rs.23,464 were withdrawn during the year 1939.

Income from hospitals such as sale of medicines, rent of wards, operation fees, etc.

11. The total amount realized under this head was Rs.2,50,234 as compared to Rs.2,16,043 in the previous year.

King George's and Associated Hospitals, Lucknow.

12. *King George's Hospital*—The total number of in-door and out-door patients treated during the year was 5,378 and 67,663 respectively, as compared with 4,004 and 71,516 in 1938.

Queen Mary's Hospital—The total number of in-door and out-door patients treated was 1,683 and 17,857, respectively as against 1,594 and 17,599 in 1938.

Accommodation—authorized number of beds :

(i) King George's Hospital	276
(ii) Queen Mary's Hospital	54 plus 6 extra temporary beds for Maternity cases.

The paucity of beds is keenly felt as this is one of the hospitals in the Province running on modern lines, hence a number of cases seek for and cannot be admitted and this is a cause of grievance to the public. This can only be got over by improving other hospital units geographically located to share the load and thus relieve the congestion at Lucknow.

King George's Medical College.

13. *Admissions*—The number of students admitted to the college on the result of the pre-medical test was 50 (forty-nine male and one female) which was the same as in the previous year.

Courses of studies—Forty-eight students were sent to Agra for the course in mental diseases. The local training of students in midwifery was continued and 42 students were trained during the year under report as against 54 in the previous year.

Post-graduate study—Ten Provincial Medical Service Officers attended the post-graduate course. They were exempted from passing the post-graduate examination.

Men's Medical School, Agra.

14. The number of students admitted in the Men's Medical School, Agra, was 50 as against 51 in 1938. Of these forty-eight were males and two females.

The status of the Men's Medical School, Agra, has been raised to a degree college and the course of study has been raised from four to five years. The entrance qualification has been raised to the Intermediate or an equivalent examination with the medical group of subjects. A batch of 50 students has already been admitted this year under the new scheme.

Out of the fifty admissions ten will be reserved for lady students.

The tuition fee and the hostel rent for the degree course have been fixed at Rs.120 and Rs.48 per annum, respectively.

The courses of study and the standards will be on the lines of the M.B., B.S. degree qualification.

Women's Medical School, Agra.

15. As this school has been closed no new students have been admitted since 1938. The number of the existing students who appeared and passed in the Final Examination is as shown below :

Final Examination, Part I	Number appeared	Number passed
April, 1939	13	9
October, 1939	15	11
Final Examination, Part II		
April, 1939	10	6
October, 1939	10	6

16. The scheme for training of nurses and midwives at the Lady Lyall Hospital, Agra, was continued during the year under report. Training of nurses.

17. During the year the State Medical Faculty held two ordinary meetings. The examination for the M.S.M.F., L.S.M.F., L.P.H., Nurses, Midwives and Assistant Midwives were conducted as usual. United Provinces State Medical Faculty.

Government have permitted the United Provinces State Medical Faculty to introduce training and examination for nurses of the second standard and certain hospitals have been approved for training such nurses.

18. Two meetings of the Council were held as usual and the following recommendations were made to Government during the year under report: United Provinces Medical Council.

(i) The introduction of a Dentists' Registration Act and the establishment of a School of Dentistry in the Province.

(ii) Measures to prevent the immigration of foreign medical practitioners, not registerable anywhere in the Empire, for medical practice in the Province.

At the request of the Medical Council, Government have been pleased to order the prosecution of persons associated in the management of the Bekar Sakha Office, Shikohabad, under the Indian Medical Degrees Act, for issuing unauthorized diplomas in western scientific medicines (Allopathy).

Four medical practitioners were warned by the Council for infringing the Code of Medical Ethics.

Reciprocity of free registration has been established with the Central Province.

19. During the year the Nurses and Midwives' Council held two ordinary meetings. The persons who were registered during the year 1939, were (1) Nurses 167, (2) Midwives 132, (3) Assistant Midwives 393, and (4) Health Visitors 21. United Provinces Nurses and Midwives' Council.

The principle of reciprocity has been partially accepted by the Council with the Bengal and the Central Province's Nurses' Councils.

20. The number of new cases examined at the Government T. B. Clinic, Allahabad, was 1 750 as against 1310 in 1,938. Seven hundred and seventy-eight of those who attended the Clinics were found to be suffering from tuberculosis as against 611 in 1938. Of these 467 and 311 were suffering respectively from pulmonary and other forms of tuberculosis as against 443 and 168 in 1938. Tuberculosis.

The X-ray work sent from the Colvin and Civil Hospitals, Allahabad, to the Clinic increased during the year and the following new appointments were made:

(i) One X-ray Assistant.

(ii) One night watchman.

(iii) One sweeper.

The main object of the Clinic has been to strike a mean between its therapeutic and preventive efforts. Pnemothorax was the main therapeutic measure adopted for relief and treatment. The advantages of this form of treatment was increasingly appreciated by the people.

On the recommendation of the Clinic, the Municipality passed a resolution making non-pulmonary tuberculosis a voluntarily notifiable disease for Registered Medical Practitioners.

The total number of cases treated in the Tuberculosis section of the King George's Hospital, during the year under report was 2,639 as against 2,506 in the preceding year. There are also three other Sanatoria in the Province receiving Government aid. The total number of patients treated at these Sanatoria and the number of deaths during the year under report are shown below :

Name of Sanatoria	Number of patients treated during the year 1939	Number of deaths during 1939	Number of patients treated during 1938	Number of deaths during 1938
1. King Edward VII Sanatorium, Bhowali, Naini Tal.	298	8	274	6
2. Shri Mangla Prasad Sanatorium, Sarnath, Benares.	49	..	56	2
3. Almora Sanatorium ..	50	2	59	6

At the Bhowali Sanatorium, a ward for 12 patients belonging to the Police Department has been constructed from donations collected from members of the United Provinces Police Service, as a memorial to Mr. G. W. Cole, I. P., Superintendent of Police, and Mr. Jainti Prasad, Sub-Inspector of Police. who lost their lives in an encounter with an armed murderer in the Farrukhabad District on the 3rd April, 1936.

Mental hospitals.

21. The Mental hospitals continue to do as much good work as is possible with the limited resources at their disposal. The superintendents and the staff have done their best to improve the lot of the inmates and make them comfortable and happy.

The annual report and returns of the mental hospitals have been published separately and give detailed information.

Honorary workers in hospitals.

22. The appointment of honorary physicians and surgeons and honorary dentists were encouraged as in the preceding year.

Compounders.

23. A training class for compounders was held as usual. Rules with regard to examination, registration, etc., are under the consideration of the United Provinces State Medical Faculty.

Leprosy.

24. Leprosy cases are being treated on improved modern lines at all hospitals and dispensaries in the United Provinces. Fifteen thousand seven hundred and seventy-nine were treated against 10,281 in 1938.

Work for the inmates was provided in the form of gardening at the Shrimati Bhagwan Dei Leper Home, Cawnpore, and the vegetables produced were consumed by the in-patients of the institution.

Dental clinics.

25. The dental clinics opened at several districts headquarter hospitals have been doing good work under the charge of honorary dentists. Nineteen thousand, eight hundred and fifty-seven patients were treated during the year under report.

26. The hospitals and dispensaries under the Countess of Dufferin's Fund continued to work satisfactorily. **Dufferin's fund.**

The suggestions for improved co-operation between the Midwifery Services of the Red Cross Society and the Dufferin Fund, as laid down in the Revised Rural Area Scheme, were approved by Government and are being carried out at the twelve centres working under the scheme.

The Ambulant dispensary which was started at Unao, as an experimental measure for the extension of medical relief to women by women in rural areas proved too expensive for the value received and was consequently closed with effect from 15th January, 1940.

Two Women's hospitals, viz the Ram Saran Das Silver Jubilee Dufferin Hospital, Ghaziabad and the Women's Hospital, Nabinagar, district Sitapur, were opened during the year under report and placed in charge of Dufferin Fund women sub-assistant surgeon.

Sir Henry Horsman and Mr. Albert Horseman of Cawnpore very generously offered to contribute respectively up to two lakhs of rupees and half a lakh of rupees for the construction of a modern female hospital on the site of the present local Dufferin Hospital, Cawnpore. This offer was accepted by the Provincial Committee, who have thanked the donors for their timely and munificient gift.

The proposal of Government to provincialize Dufferin and Women's hospitals which are affiliated to the United Provinces branch of the Countess of Dufferin's Fund, excepting the Dufferin Hospitals at Allahabad, Cawnpore, Lucknow and Ishwari Memorial Hospital, Benares, is under consideration.

27. The existing State hospitals in these Provinces are working under severe hardship by the limited funds at their disposal. Extra staff, accommodation, funds for diet and equipment, etc., adequate to their requirements are still needed. The provision for medicines also requires to be increased. **State hospitals.**

During the year under report the State hospitals at Allahabad were visited by His Excellency Sir Maurice Hallet, K.C.S.I., C.I.E., I.C.S., the Governor of the United Provinces. His Excellency felt the necessity of a new central hospital at Allahabad in place of the old ones. The plans and estimates for this project are under preparation.

28. The provincialization of some of the sadr hospitals is still engaging the attention of Government. Most of the district boards find it difficult to maintain these institutions up to modern standards. A sum of Rs.50,000 was again allotted by Government to assist district boards to provide medicines and equipment for their rural allopathic dispensaries. **District headquarters hospitals and dispensaries**

29. The scheme for giving subsidies to local boards for building and maintaining subsidized dispensaries and for settling medical practitioners in rural areas was continued on a little larger scale and is an important land-mark in the history of medical expansion in this Province. This is a systematic attempt to introduce modern scientific medicine to the vast population of the rural areas. It not only provided a system of medical treatment where none had been available before, but also aroused local interest in matters pertaining to health and medical measures and promoted a new type of co-operative enterprise so vital to the health and happiness of the village community. **Subsidized scheme and medical relief in rural areas.**

There were 76 subsidized dispensaries and 40 subsidized medical practitioners working in rural areas as against 70 and 36 in the preceding year. The total number of patients treated by subsidized medical practitioners settled in rural areas was 301,844 against 266,444 during 1938.

Rural Development Dispensaries.

The object of bringing adequate medical relief within easy access of every village was furthered by the establishment of the following dispensaries in rural areas in connection with the Rural Development Scheme :

(i) 48 Allopathic Fixed Dispensaries.

(ii) 16 Allopathic Travelling Dispensaries.

(iii) 146 Ayurvedic Aushadhalayas.

(iv) 47 Unani Dawakhanas.

The establishment of these dispensaries has been financed by Government. In selecting the places for the location of these dispensaries due regard has been paid to local requirements.

Allopathic Travelling Dispensaries—Travelling dispensaries render medical relief in the interior of the district. These dispensaries are mobile units which visit villages in fixed areas in rotation, providing medical aid for common ailments to villagers on the spot, and referring serious cases to the nearest hospitals or branch dispensaries.

The dispensaries are provided with a Light Field Service Tent and a Servant Pal with furniture, drugs and equipment, disinfectants, etc. and move about the villages in bullock carts. The disinfecting coolies attached to these dispensaries carry out the disinfection of wells and villages huts in times of epidemics. During their visits to villages the Medical Officers in charge of Travelling Dispensaries undertake public health propaganda, and examine school children.

Fixed Allopathic Dispensaries—These dispensaries are rendering useful service to the villagers of the locality and several require provision to be made for in-door patients.

Ayurvedic Aushadhalayas and Unani Dawakhanas—Qualified vaids and hakims have been placed in charge of these institutions.

With the co-operation of three departments, viz. (1) Medical, (2) Rural Development and (3) Public Health, it is hoped that these medical units will impart medical relief in rural areas and serve as an important link in the chain of medical re-organization.

The total number of out-door and in-door patients treated at the Rural Development Allopathic and Indigenous Dispensaries was as shown below :

	Out-door	In-door
Allopathic Dispensaries	401,406	71
Indigenous	715,204	..

The number of surgical operations performed at the Rural Development Allopathic Dispensaries during the year under report was 7,847.

Inspection.

30. The Inspector General of Civil Hospitals, United Provinces, inspected 73 hospitals and dispensaries during the year under report.

Of these 73, sixty-eight were inspected at the district headquarters and five at out-lying places.

Conclusion

31. In conclusion, I desire to thank all medical officers and subordinates of the departments who have by their devotion to duty contributed so largely to the successful working of the department during the year.

My thanks are also due to my Personal Assistant Mr. J. A. Rosemond, and to the office staff, who deserve commendation for doing excellent work with inadequate staff.

Finally I may mention here that though the work of medical relief in the Province was conducted mainly by the institutions under my administrative control, the valuable services rendered by the local bodies and by the non-official organizations such as (i) British Empire Leprosy Relief Association, United Provinces Branch, (ii) T. B. Association, United Provinces Branch, (iii) Red Cross Society and (iv) the St. John Ambulance Association, United Provinces, should be acknowledged, and I take this opportunity of thanking them.

T. C. BOYD,

COLONEL, I.M.S.,

Inspector General of Civil Hospitals,
United Provinces.

12th June, 1940.

N.B.—1. There is a deficit balance of Rs 1,695 in Ghazipur District as details given below:

	Rs.
Sadr Hospital	—908
Saidpur Dispensary	—218
Mohamadabad Dispensary	—292
Zamania Dispensary	—277
Total	.. —1,695

2. The opening balance (column 3) shows an increase of Rs.18,485 against closing balance of last year 1938, as this amount was shown less in Allahabad District.

N.B.—There is an increase of Rs.44,584 in the opening balance in (column 3) of this year's statement as compared with the closing balance in column 8 of last year 1938, which is due to the following omissions :—

Rs.
+ 28,200 against Salempur Dispensary } in Moradabad District which were not shown last year.
+ 18,500 " Katgarh " }
— 5,000 " Anupshahr " " Bulandshahr District which was less shown last year.
+ 2,884 " Dufferin Hospital, Kheri District, not shown last year.

Total 44,584
